ASSESSMENT RESULT

Taken Aug 2022	**Attention to Detail** Result: Good
	This test unit measures the ability to identify patterns and inconsistencies in visual representations of data

Taken Aug 2022	**General Computer Knowledge** Result: Outstanding
	Everyday business communication and other important transactions are completed efficiently with office computer applications, email, and the internet. Computers in the workplace have reduced cost and time in processing tasks. Hiring employees with working knowledge of computers is the current standard. This test assesses basic knowledge of computer operations, hardware and web proxies.

Taken Aug 2022	**Windows Knowledge** Result: Good
	This test unit measures the familiarity of the test taker with the Windows Operating System, its screens and other Windows-specific function

Taken Aug 2022	**Following Instructions (Written)** Result: Outstanding
	This test unit measures the ability to understand and follow a set of detailed written instructions and then select and implement the correct course of action

Taken Aug 2022	**Computer Troubleshooting Fundamentals** Result: Good
	This test unit measures the ability to isolate the root cause and efficiently provide sound solutions to technical issues.
